

2021 WSCM Student Video Contest Virtual Awards Ceremony

Wednesday, May 5th
6:30pm – 8:00pm

Sponsorship Levels & Benefits

What's So Cool About Manufacturing?, developed by the Manufacturing Resource Center, is an annual student video contest dedicated to changing perceptions and attitudes about advanced manufacturing careers. Middle School students create 1.5 minute videos of local manufacturing facilities under the guidance of their teachers. The contest generates awareness of what an advanced manufacturing career may look like to our younger tech-savvy generation and helps dispel the outdated image of the industry.
